EXPERIENCE

DESIGN AT WORK
Web Developer   October 2022 – July 2023 | Houston, TX
- Develop functional custom WordPress websites using PHP and JavaScript based on UI/UX mockups that render well across a variety of devices and web browsers on different platforms.
- Communicate with clients on current or future web development projects to meet expected deadlines.
- Managed over 20 client websites/web apps through content updates and new page programming.

SELF EMPLOYED
Freelance Web Developer   July 2019 – Present | Houston, TX
- Create robust websites using CSS, HTML, ReactJS and JavaScript – from concept to design and launch – focusing on responsiveness, compatibility, and user experience.

- Create single-page web applications using various web technologies such as ReactJS, and JavaScript.

GREATER HOUSTON CHURCH

Website Manager/SEO Specialist   August 2021 – Present | Houston, TX
- Manage overall website for organization https://greaterhouston.church.
- Maintain overall website performance to maintain SEO rankings.
- Research and analyze the trends and best practices to develop and implement strategies that improve search results including UI/UX best practices through coding improvements.

HOSTGATOR (NEWFOLD)

Web Administrator Team Lead   February 2018 – August 2022 | Houston, TX
- Update website content through front-end code editing, edit responsive website code, interpret responsive email coding and cross-client compatibility, and crop and implement images for website maintenance.
- Manage a support team of 20 web advisors with troubleshooting website and server issues during client interactions, using Linux Bash/Shell.
- Create training material and lead training sessions for new and tenured agents to quickly and efficiently resolve website issues such as PHP/HTML errors that occur on websites using Bash, Regex, and SSH/Terminal.
